## Profile

Experienced Consultant seeking opportunities in financial operations, FinTech, or supply chain operations and technology. Motivated by helping clients optimize strategic and technological transformations. Extensive experience managing client facing relationships and implementation of cloud and platform technology solutions using the agile methodology to drive process automation and workforce efficiency. Adept in all project life cycle stages from gathering and navigating complicated client needs to delivery and go-live support.

## Professional Experience

### Manhattan Associates / Atlanta, GA

January 2020 – Pres.

#### Software Consultant:

- Provided software implementation expertise for four clients ranging from \$100 million to \$2.5 billion in assets
- Aligned client business needs with base software capabilities and completed gap analyses to identify custom software enhancements required, solving critical issues with immediate and direct financial impact on client organizations
- Designed and configured external software integration messaging between Manhattan cloud system, external host and ERP systems, and multiple 3<sup>rd</sup> party manufacturing handling equipment software providers for a government distributor.
- Managed end-to-end testing strategy and execution, including development of test scripts, end-to-end regression testing, UAT entry and exit criteria, external system integration framework documentation, and defect management and resolution
- Completed all project phase deliverables on-time and on-budget
- Garnered 'Rockstar Rookie' recognition after being nominated by peers and superiors for exceptional work by a new hire

### OSC Capstone Consulting Project / Columbia, SC

Fall 2019

#### Electrolux Team Member:

- Minimized working capital for Electrolux's North American region by analyzing the current Eastern Hemisphere supply base and identifying additional opportunities for the consignment and VMI programs

### Kestra Financial / Austin, TX

June – August 2019

#### Business Process Intern:

- Designed, implemented, and improved the operational processes of an industry-leading wealth management broker dealer
- Collaborated in weekly triage meetings with the goal of solving operational and technological issues facing the business, learning the agile methodology
- Resolved problems relating to platform integration and submitted further recommendations for advisor platform improvement

### AmWINS Group Benefits Inc. / Irving, TX

June – August 2018

#### Process Development Intern:

- Consulted with senior management to develop and implement strategies increasing production efficiency across multiple departments for the largest TPA subsidiary of AmWINS Group
- Documented and consolidated data and procedures for employer groups, affinity groups, and insurance carriers to ease process of training new employees in a high-turnover office
